Journal of the American Venereal Disease Association

Subject Index Volume 3, 1976

A

AEROSOLS

accidental laboratory infection with *Treponema pallidum*, Nichols strain (Fitzgerald, *et al*), 76

AMPICILLIN

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

treatment of uncomplicated gonorrhea with polycillin-PRB (Kleris, *et al*), 84

ANTIBIOTICS

biopharmacology of syphilotherapy (Rein), 109

treatment of latent syphilis (Jaffe), 143

AORTITIS, SYPHILITIC

syphilis therapy: an historical perspective (Kampmeier), 99

ARTHRITIS, RHEUMATOID

problems with beaded fluorescence pattern in FTA-ABS test (Pien, *et al*), 20

B

BACTERIOLOGICAL TECHNIQUES

preliminary studies in the clinical use of a bicarbonate containing growth medium for *Neisseria gonorrhoeae* (Earl, *et al*), 40

BICARBONATES

preliminary studies in the clinical use of a bicarbonate containing growth medium for *Neisseria gonorrhoeae* (Earl, *et al*), 40

BISMUTH

syphilis therapy: an historical perspective (Kampmeier), 99

C

CELL WALL

biopharmacology of syphilotherapy (Rein), 109

CEPHALOSPORINS

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

CERVIX NEOPLASMS

epidemiologic characteristics of women infected with *Corynebacterium vaginale* (*Haemophilus vaginalis*), (Josey & Lambe), 9

CHLORAMPHENICOL

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

COMMUNICABLE DISEASE CONTROL

reporting and treating gonorrhea: results of a statewide survey in Alaska (Eisenberg & Wiesner), 79

CONTRACEPTIVE AGENTS

cervical gonorrhea in women using different methods of contraception (Keith, *et al*), 17

CONTRACEPTIVES, ORAL

cervical gonorrhea in women using different methods of contraception (Keith, *et al*), 17

epidemiologic characteristics of women infected with *Corynebacterium vaginale* (*Haemophilus vaginalis*) (Josey & Lambe), 9

CORYNEBACTERIUM INFECTIONS

epidemiologic characteristics of women infected with *Corynebacterium vaginale* (*Haemophilus vaginalis*) (Josey & Lambe), 9

COTRIMOXAZOLE, *see* SULFAMETHOXAZOLE

CULTURE MEDIA

preliminary studies in the clinical use of a bicarbonate containing growth medium for *Neisseria gonorrhoeae* (Earl, *et al*), 40

D

DIAGNOSIS DIFFERENTIAL

sexuality and prostatitis: a hypothesis (Drach), 87

whatever has happened to locomotor ataxy (ed.), 51

DISEASE VECTORS

reporting and treating gonorrhea: results of a statewide survey in Alaska (Eisenberg & Wiesner), 79

DRUG HYPERSENSITIVITY

adverse reactions in syphilis therapy (Brown), 172

DRUG INTERACTIONS

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

DRUG SYNERGISM

biopharmacology of syphilotherapy (Rein), 109

DRUG THERAPY

biopharmacology of syphilotherapy (Rein), 109

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

why review syphilis therapy now? (ed.), 98

DRUG THERAPY, COMBINATION

biopharmacology of syphilotherapy (Rein), 109

E

EPIDEMIOLOGY

epidemiologic characteristics of women infected with *Corynebacterium vaginale* (*Haemophilus vaginalis*), (Josey & Lambe), 9

epidemiologic treatment of syphilis (Hart), 177

ERYTHROMYCIN

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

F

FALSE-POSITIVE REACTIONS

the microhemagglutination assay for *Treponema pallidum* antibodies (MHA-TP), a new treponemal test for syphilis: where does it fit? (Rudolph), 3

problems with beaded fluorescence pattern in FTA-ABS test (Pien, *et al*), 20

FETAL MEMBRANES, PREMATURE RUPTURE

asymptomatic gonorrhea and pregnancy (Amstey & Steadman), 14

FLUORESCENT ANTIBODY TECHNIC

the microhemagglutination assay for *Treponema pallidum* anti-

bodies (MHA-TP), a new treponemal test for syphilis: where does it fit? (Rudolph), 3

problems with beaded fluorescence pattern in FTA-ABS test (Pein, *et al*), 20

G

GONORRHEA

asymptomatic gonorrhea and pregnancy (Amstey & Steadman), 14
cervical gonorrhea in women using different methods of contraception (Keith *et al*), 17

changing penicillin resistance of the gonococcus in Thailand (Spence, *et al*), 32

gonorrhea screening program in a women's hospital outpatient department: results and analysis of risk factors (Cooper, *et al*), 71

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

oropharyngeal gonorrhea during pregnancy (Stutz, *et al*), 65
parameters of normal polymorphonuclear cell function in patients with repeated gonococcal infections (Brooks & Ingwer), 90

reevaluation of the role of T-mycoplasmas in nongonococcal urethritis (Lee, *et al*), 25

reporting and treating gonorrhea: results of a statewide survey in Alaska (Eisenberg & Wiesner), 79

a retrospective study on the effectiveness of a screening effort to reduce the complications of gonorrhea (Stage, *et al*), 61

sociopsychiatric characteristic of clinic patrons with repeat gonorrhea infections (Hayes & Prokop), 43

tetracycline in the treatment of uncomplicated male gonorrhea (Judson & Rothenberg), 56

treatment of uncomplicated gonorrhea with polycillin-PRB (Kleris, *et al*), 84

H

HAEMOPHILUS VAGINALIS

epidemiologic characteristics of women infected with *Corynebacterium vaginale* (*Haemophilus vaginalis*), (Josey & Lambe), 9

HEMAGGLUTINATION TESTS

the microhemagglutination assay for *Treponema pallidum* antibodies (MHA-TP), a new treponemal test for syphilis: where does it fit? (Rudolph), 3

HERPES SIMPLEX

anorectal *Herpesvirus hominis* infection in men (Waugh), 68

HISTORY OF MEDICINE

syphilis therapy: an historical perspective (Kampmeier), 99

HOMOSEXUALITY

anorectal *Herpesvirus hominis* infection in men (Waugh), 68

I

INFANT MORTALITY

asymptomatic gonorrhea and pregnancy (Amstey & Steadman), 14

INTRAUTERINE DEVICES

cervical gonorrhea in women using different methods of contraception (Keith *et al*), 17

IODINE

syphilis therapy: an historical perspective (Kampmeier), 99

L

LABORATORY INFECTION

accidental exposure to *Treponema pallidum* in professional life (ed.), 54

accidental laboratory infection with *Treponema pallidum*, Nicholas strain (Fitzgerald, *et al*), 76

LEUKOCYTE CULTURE TEST, MIXED

parameters of normal polymorphonuclear cell function in patients with repeated gonococcal infections (Brooks & Ingwer), 90

LUPUS ERYTHEMATOSUS, SYSTEMIC

problems with beaded fluorescence pattern in FTA-ABS test (Pien, *et al*), 20

M

MASS SCREENING

a retrospective study on the effectiveness of a screening effort to reduce the complications of gonorrhea (Stage, *et al*), 61

gonorrhea screening program in a women's hospital outpatient department: results and analysis of risk factors (Cooper, *et al*), 71

MATERNAL FETAL EXCHANGE

treatment of syphilis in pregnancy (Thompson), 159

MOUTH DISEASES

oropharyngeal gonorrhea during pregnancy (Stutz, *et al*), 65

MYCOPLASMA INFECTIONS

reevaluation of the role of T-mycoplasmas in nongonococcal urethritis (Lee, *et al*), 25

N

NEISSERIA GONORRHOEA

preliminary studies in the clinical use of a bicarbonate containing growth medium for *Neisseria gonorrhoeae* (Earl, *et al*), 40

NEUROLOGIC MANIFESTATIONS

treatment of neurosyphilis (Rothenberg), 153

P

PENICILLIN G, PROCAINE

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

PENICILLIN RESISTANCE

changing penicillin resistance of the gonococcus in Thailand (Spence, *et al*), 32

PENICILLINS

biopharmacology of syphilotherapy (Rein), 109

syphilis therapy: an historical perspective (Kampmeier), 99

treatment of cardiovascular syphilis (St. John), 148

treatment of congenital syphilis (Budell), 168

treatment of late benign syphilis: review of the literature (St. John), 146

treatment of latent syphilis (Jaffe), 143

treatment of neurosyphilis (Rothenberg), 153

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

why review syphilis therapy now? (ed.), 98

PENILE DISEASES

psoriasis of the penis: Koebner reactions following oral genital exposure (Fiumara), 59

PHAGOCYTOSIS

parameters of normal polymorphonuclear cell function in patients with repeated gonococcal infections (Brooks & Ingwer), 90

PHARYNGEAL DISEASES

oropharyngeal gonorrhea during pregnancy (Stutz, *et al*), 65

POLYCILLIN-PRB, *see* AMPICILLIN

POLYMORPHISM

parameters of normal polymorphonuclear cell function in patients with repeated gonococcal infections (Brooks & Ingwer), 90

PREGNANCY COMPLICATIONS

asymptomatic gonorrhea and pregnancy (Amstey & Steadman), 14
oropharyngeal gonorrhea during pregnancy (Stutz, *et al*), 65
syphilis therapy: an historical perspective (Kampmeier), 99
treatment of syphilis in pregnancy (Thompson), 159

PROBENECID

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

treatment of uncomplicated gonorrhea with polycillin-PRB (Kleris, *et al*), 84

PROSTATITIS

sexuality and prostatitis: a hypothesis (Drach), 87

PSORIASIS

psoriasis of the penis: Koebner reaction following oral genital exposure (Fiumara), 59

PSYCHOPHYSIOLOGY

sociopsychiatric characteristic of clinic patrons with repeat gonorrhea infections (Hayes & Prokop), 43

R**RECTAL DISEASES**

anorectal *Herpesvirus hominis* infection in men (Waugh), 68

RISK FACTORS

gonorrhea screening program in a women's hospital outpatient department: results and analysis of risk factors (Cooper, *et al*), 71

S**SALPINGITIS**

a retrospective study on the effectiveness of a screening effort to reduce the complications of gonorrhea (Stage, *et al*), 61

SEX BEHAVIOR

psoriasis of the penis: Koebner reaction following oral genital exposure (Fiumara), 59

reevaluation of the role of T-mycoplasmas in non-gonococcal urethritis (Lee, *et al*), 25

sexuality and prostatitis: a hypothesis (Drach), 87

SOCIOECONOMIC FACTORS

social aspects of venereal disease aboard a US Navy destroyer (Levine, *et al*), 35

sociopsychiatric characteristic of clinic patrons with repeat gonorrhea infections (Hayes & Prokop), 43

SPECTINOMYCIN

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

treatment of primary syphilis (Elliott), 128

SPIROCHETES

biopharmacology of syphilotherapy (Rein), 109

SULFAMETHOXAZOLE

anorectal *Herpesvirus hominis* infection in men (Waugh), 68

SYPHILIS

accidental exposure to *Treponema pallidum* in professional life (ed.), 54

biopharmacology of syphilotherapy (Rein), 109

epidemiologic treatment of syphilis (Hart), 177

syphilis therapy: an historical perspective (Kampmeier), 99

treatment of late benign syphilis: review of the literature (St. John), 146

treatment of neurosyphilis (Rothenberg), 153

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

whatever has happened to locomotor ataxy (ed.), 51

why review syphilis therapy now? (ed.), 98

SYPHILIS, CARDIOVASCULAR

treatment of cardiovascular syphilis (St. John), 148

SYPHILIS, CONGENITAL

the microhemagglutination assay for *Treponema pallidum* antibodies (MHA-TP), a new treponemal test for syphilis: where does it fit? (Rudolph), 3

treatment of congenital syphilis (Budell), 168

SYPHILIS SERODIAGNOSIS

the microhemagglutination assay for *Treponema pallidum* antibodies (MHA-TP), a new treponemal test for syphilis: where does it fit? (Rudolph), 3

problems with beaded fluorescence pattern in FTA-ABS test (Pien, *et al*), 20

T**TABES DORSALIS**

whatever has happened to locomotor ataxy (ed.), 51

TETRACYCLINES

national gonorrhea therapy monitoring study: adverse drug reactions (Jaffe, *et al*), 29

tetracycline in the treatment of uncomplicated male gonorrhea (Judson & Rothenberg), 56

treatment of primary syphilis (Elliott), 128

treatment of secondary syphilis (Brown), 136

treatment of syphilis in pregnancy (Thompson), 159

TREPONEMA PALLIDUM

accidental laboratory infection with *Treponema pallidum*, Nichols strain (Fitzgerald, *et al*), 76

biopharmacology of syphilotherapy (Rein), 109

U**URETHRITIS**

reevaluation of the role of T-mycoplasmas in nongonococcal urethritis (Lee, *et al*), 25

sexuality and prostatitis: a hypothesis (Drach), 87

V**VENEREAL DISEASES**

social aspects of venereal disease aboard a US Navy destroyer (Levine, *et al*), 35

Sexually Transmitted Diseases

Subject Index

Volume 4, 1977

A

ACUTE PELVIC INFLAMMATORY DISEASE

- acute pelvic inflammatory disease (Thompson & Hager), 105
- acute pelvic inflammatory disease: characteristics of patients with gonococcal and nongonococcal infection and evaluation of their response to treatment with aqueous procaine penicillin G and spectinomycin hydrochloride (McCormack, *et al*), 125

ANTIBIOTICS

- treatment of seropositive primary syphilis: an evaluation of 196 patients (Fiumara), 92
- treatment of secondary syphilis: an evaluation of 204 patients (Fiumara), 96

ANTIBODY RESPONSE

- lack of correlation between killing of gonococci by serum and antibodies directed against pili from strain 2686 of *Neisseria gonorrhoeae* (Zeckel, *et al*), 152

ARTHRITIS, GONOCOCCAL

- ruptured bilateral synovial cysts in presumed gonococcal arthritis (Terho, *et al*), 100

C

CHLAMYDIA TRACHOMATIS

- expanding clinical spectrum of infections with *Chlamydia trachomatis* (Schacter, ed), 116

COMMUNITY HEALTH SERVICE

- experience of the Howard Brown Memorial Clinic of Chicago with sexually transmitted diseases (Ostrow & Shaskey), 53

CONDYLOMAS

- anal warts in a population of gay men in New York City (Carr & William), 56
- genital warts (Oriel), 154

CORYNEBACTERIUM VAGINALE

- corynebacterium vaginale (Dunkelberg), 69
- inhibition of *corynebacterium vaginale* by metronidazole (Smith & Dunkelberg), 20

CYTOMEGALOVIRUS

- simultaneous isolation of *herpesvirus hominis* Type 2 and cytomegalovirus from the genital tract of a woman (Manual & Embil), 18

D

DRUG REACTION

- systemic toxic reactions to procaine penicillin G (Downham, *et al*), 139

E

ENDOCARDITIS

- gonococcal endocarditis (John, *et al*), 84

F

FELLATIO

- Chlamydial pharyngitis (Bowie, *et al*), 150

G

GENITAL DISEASE, FEMALE

- evaluation of trichomoniasis in two ethnic groups in Papua New Guinea (Zigas), 63

GENITAL INFECTIONS

- treatment of genital infections with *Herpesvirus hominis* (Adams, ed), 161

GENITAL ULCER

- granuloma inguinale: a case report (Santos, *et al*), 103

GONOCOCCAL MENINGITIS

- gonococcal meningitis and ventriculitis in the presence of a ventriculoperitoneal shunt (Noble & Cooper), 9

GONORRHEA

- evaluation of Microcult G.C. in venereal disease clinics (Nielsen & Andersen), 15
- evaluation of the Microcult Gonorrhea Detection System (Judson), 22
- gonorrhea and the urethral syndrome (Curran, ed), 119
- gonorrhea in adolescents: complement-fixing antibodies in a selected population of young women (Ris & Blaken), 81
- modified immunofluorescence test for the serologic diagnosis of gonorrhea (FGT-ABS) (Gaafar & Schoonmaker), 44
- recidivism among patients with gonococcal infection presenting to a venereal disease clinic (Noble, *et al*), 39
- serologic testing for gonorrhea (Koransky & Jacobs), 27

GRANULOMA INGUINALE

- granuloma inguinale: a case report (Santos, *et al*), 103

H

HERPESVIRUS HOMINIS

- simultaneous isolation of *Herpesvirus hominis* Type 2 and cytomegalovirus from the genital tract of a woman (Manual & Embil), 18

- treatment of genital infections with *Herpesvirus hominis* (Adams, ed), 161

HISTORY OF MEDICINE

- introduction of salvarsan (Kampmeier, ed), 66
- John Hunter—a man of conviction (Kampmeier), 114
- prenatal syphilis and Sir Jonathan Hutchinson, 164

HOMOSEXUALITY

- anal warts in a population of gay men in New York City (Carr & William), 56
- experience of the Howard Brown Memorial Clinic of Chicago with sexually transmitted diseases (Ostrow & Shaskey), 53
- improving sexually transmitted disease health services for gays: a national prospective (Henderson), 58
- innovative program of venereal disease casefinding, treatment and education for a population of gay men (Merino & Richards), 50
- sexually transmitted disease in gay men (Judson, ed), 76
- venereal disease and gay men: opening remarks (Lear), 49
- venereal transmission of shigellosis in Seattle-King County (Bader, *et al*), 89

I

INFECTIONS, PREPUBERTAL

- prepubertal infections with *Neisseria gonorrhoeae*: clinical and epidemiologic significance (Potterat, *et al*), 132

L

LYMPHOGANULOMA VENEREUM

- lymphogranuloma venereum presenting as superclavicular and inguinal lymphadenopathy (Walzer & Armstrong), 12

M

METHICILLIN

- gonococcal meningitis and ventriculitis in the presence of a ventriculoperitoneal shunt (Noble & Cooper), 9

METRONIDAZOLE

- inhibition of *Corynebacterium vaginale* by metronidazole (Smith & Dunkelberg), 20

N

NEISSERIA GONORRHOEAE

- evaluation of Microcult G.C. in venereal

disease clinics (Nielsen & Andersen), 15
gonococcal endocarditis (John, *et al*), 84
in vitro inhibition of growth of *Neisseria gonorrhoeae* by genital microorganisms (Kaye & Levison), 1

lack of correlation between killing of gonococci by serum and antibodies directed against pili from strain 2686 of *Neisseria gonorrhoeae* (Zeckel, *et al*), 152
penicillinase-producing *Neisseria gonorrhoeae* (Siegel, *et al*, ed), 32
prepubertal infections with *Neisseria gonorrhoeae*: clinical and epidemiologic significance (Potterat, *et al*), 132

P

PHARYNGITIS

Chlamydial pharyngitis (Bowie, *et al*), 150

PROCAINE PENICILLIN G

systemic toxic reactions to procaine penicillin G (Downham, *et al*), 139

Q

QUESTIONNAIRE SURVEY

questionnaire survey of reported early congenital syphilis: problems in diagnosis, prevention and treatment (Kaufman, *et al*), 145

R

RECIDIVISM, GONOCOCCAL

recidivism among patients with gonococcal

infection presenting to a venereal disease clinic (Noble, *et al*), 39

S

SEROLOGIC TESTING

modified immunofluorescence test for the serologic diagnosis of gonorrhea (FGT-ABS) (Gaafar & Schoonmaker), 44

serologic testing for gonorrhea (Koransky & Jacobs), 27

SHIGELLOSIS

venereal transmission of shigellosis in Seattle-King County (Bader, *et al*), 89

SYPHILIS

prenatal syphilis and Sir Jonathan Hutchinson, 164

questionnaire survey of reported early congenital syphilis: problems in diagnosis, prevention and treatment (Kaufman, *et al*), 145

reinfection primary and secondary syphilis: the post treatment serologic response (Fiumara), 136

treatment of secondary syphilis: an evaluation of 204 patients (Fiumara), 96

treatment of seropositive primary syphilis: an evaluation of 196 patients (Fiumara), 92

T

TETRACYCLINE

granuloma inguinale: a case report (Santos, *et al*), 103

lymphogranuloma venereum presenting as superclavicular and inguinal lymphadenopathy (Walzer & Armstrong), 12

TRICHOMONAS VAGINALIS

evaluation of trichomoniasis in two ethnic groups in Papua New Guinea (Zigas), 63

U

URETHRITIS

etiology of nongonococcal urethritis in men attending a venereal disease clinic (Wong, *et al*), 4

V

VENEREAL DISEASE

innovative program of venereal disease case-finding, treatment and education for a population of gay men (Merino & Richards), 50

venereal disease and gay men: opening remarks (Lear), 49

VENEREAL DISEASE CLINICS

etiology of nongonococcal urethritis in men attending a venereal disease clinic (Wong, *et al*), 4

evaluation of Microcult G.C. in venereal disease clinics (Nielsen & Andersen), 15
innovative program of venereal disease case-finding, treatment and education for a population of gay men (Merino & Richards), 50

recidivism among patients with gonococcal infection presenting to a venereal disease clinic (Noble, *et al*), 39
